BOUNTY LAND
—AND—
PENSIONS.
B. H. MACE,
Counsellor and Attorney at Law

WOULD respectfully announce to the public, that he has employed an able and efficient Agent who will give personal attention to prosecuting all difficult claims for Bounty Land and Pensions before the several Departments at Washington.

Claims for arrears, or increase of Revolutionary Pensions, both for Soldiers and Widows, attended to with promptness and fidelity.

He has all the facilities that the requisite Forms, Muster Rolls and experience, can furnish for procuring the Bounty Land for Officers and Soldiers in the war of 1812, and in the Mexican War, and in the event of their death for Widows and minor Children.

Information in reference to the validity of any claim will be given by mail or otherwise, without charge.
May 15, 1852.

The following certificate from Dr. John C. Warren, of Boston, was given 16 years since, but will last forever.

Boston, January 7, 1836

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the varieties which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.
JOHN C WARREN M. D.

CERTIFICATE. The following certificate from Professor Stuart, of Andover Theological Seminary:

The undersigned having occasion to employ J. Frederick Foster, of Boston, in making the Trusses for the relief of Hernia, takes pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's skill in the manufacture and adapting them to the giving ease and comfort to the wearer, surpasses, as far as our experience goes, any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendation of that eminent surgeon, Dr. J. C. Warren, is a sufficient guaranty for all who may favor Mr. F., that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation. M. STUART.

ZINC PAINTS,
WARRANTED PURE.
The New Jersey Zinc Co,
WAREHOUSE 45 DEY STREET,
NEW YORK,

ARE prepared to supply their Zinc Paints at the following prices:
No. 1 White, ground in oil, 9c per lb.
No. 2 White, ground in oil, 8c per lb.
No. 3 White, ground in oil, 7c per lb.
Brown and Black, ground in oil, 5½c per lb.
Dry White of Zinc, 6c per lb.

WHITE ZINC PAINT,

After thorough tests in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint.—For whiteness and brilliancy it is unrivaled; it is free from all poisonous properties so common and dangerous in other pigments; will cover, equal weight, from 40 to 100 per cent more space than lead and is, therefore, much cheaper to the consumer. Asian inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of ships. Their White Zinc ground in varnish produces the porcelain finish—

Brown and Black Zinc Paints.

In a few hours forms a hard and solid metalic coating upon wood, brick iron and other metalic surfaces, and are remarkable for their fire-proof properties. They are specially adapted for marine purposes, having been found to resist the corroding action of salt water, so destructive to other paints.

Bangor, Dec 13. 1awd&wtf

By the President of the United States.

In pursuance of law, I, MILLARD FILLMORE, President of the United States of America, do hereby declare and make known, that a public sale will be held at the Land Office at STILLWATER, in the Territory of MINNESOTA, commencing on Monday, the first day of November next, for the disposal of the Public Lands situated in the following named Townships and fractional Townships, viz:

North of the base line, and west of the fourth principal meridian;

FRACTIONAL townships thirty seven and thirty-eight, on the right bank of St. Croix river, and townships thirty-nine, forty, forty-one, and forty-two, of range twenty.

Townships thirty-eight, thirty-nine, and forty, of range twenty-one.

An island in sections thirteen and twenty-four, in township twenty and townships thirty-eight, thirty-nine, and forty, of range twenty-two.

Townships forty, forty-one, and forty-two, of range twenty-three.

Hennepin Island, or lot 5, section twenty-three in township twenty-nine, and an island in section four, of township thirty, of range twenty-four.

Township thirty-seven and thirty-eight, of range twenty-five.

Townships thirty-seven, thirty-eight, thirty-nine and forty of range twenty-six.

Townships of thirty-eight and thirty nine, of range twenty-seven

Township thirty-nine, of range twenty eight.

Lands appropriated by law for the use of schools, military, and other purposes, will be excluded from the sale.

The offering of the above mentioned lands will be commenced on the day appointed, and will proceed in the order in which they are advertised, with all convenient despatch, until the whole shall have been offered, and the sale thus closed; but the sale shall not be kept open longer than two weeks; and no private entry or location of any of the lands will be admitted, until after the expiration of the two weeks.

Given under my hand, at the city of Washington, this twenty-ninth day of July, Anno Domini one thousand eight hundred and fifty-two.
MILLARD FILLMORE.
By the President:
JOHN WILSON,
Acting Commissioner of the General Land Office.

Notice to Pre-Emption Claimants, and to Lessees, Occupants, and Permittees of Mineral Lands.

EVERY person entitled to the right of pre-emption to any of the lands within the townships and fractional townships above enumerated, is required to establish the same to the satisfaction of the Register and Receiver, at Stillwater, and make payment therefor, *as soon as practicable after seeing this notice*, and before the day appointed for the public sale, otherwise such claim will be forfeited.

And every person having the right under the act entitled "An act to create an additional Land District in the Territory of Wisconsin, and for other purposes," approved 3d March, 1847, *as lessees, occupants, or permittees* to enter to the extent of their leases or permits any of the lands within the townships and fractional townships above enumerated, and who are entitled under the act entitled "An act to reduce the minimum price of the mineral lands in the Lake Superior District in Michigan, and the Chippewa District in Wisconsin," approved 26th September, 1850, "to enter the land covered by their leases, occupancy and permits respectively," at the minimum price of $1 25 per acre, or if covering more than one full section, required by the surrender of such lease or permit at the proper Land Office, to purchase, if he shall elect to do so, one full section," at the rate of $2.50 per acre, is required to establish the same to the satisfaction of the Register and Receiver at Stillwater, and make payment therefor as soon *as practicable after seeing this notice*, and before the day appointed for the commencement of the public sale of the lands embracing the tract claimed, otherwise such claim will be forfeited.
JOHN WILSON,
Acting Commissioner of the General Land Office.

25,000 Sold per Year!
The Unsurpassed and Unsurpassable
Bay State Stove,

OF SIX SIZES, of heavy and smooth castings—price from $15 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c., &c., or in durability and economy—may be had, as heretofore, at the well known and long established

Stove, Furnace and Range
DEPOT,
Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OF
N. JOHNSON,

Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 23 000 were sold the past year, and of which some 30 000 will not be more than sufficient to supply the demand the present year.

The **BAY STATE** is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning.

Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait in Bangor for them, AS I HAVE THEM ON HAND!

A CHALLENGE OF $60
is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, (for which I am sole Agent,) cannot be produced which will compare with the 60 I now have on hand, in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling, or other cooking requisites.

☞ The public are specially requested not to mistake a Stove called the "IMPROVED" BAY STATE, which is a cheaper and inferior article, of thinner and less durable castings, and which, is sometimes advertised without the word 'Improved' as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices.

Railroad Up River.

On Monday evening last, there was an earnest and efficient meeting at the Bangor House, of those in favor of the immediate construction of a Railroad up the river to Lincoln. We were unable to attend this meeting, having a previous engagement, and as the account of its proceedings did not reach us in season for our yesterday's paper, we reserved it for our paper of this morning, when we could do the subject greater justice than a few brief lines to which we must have confined ourselves yesterday. We make this explanation in order that our position may not be misunderstood, or misrepresented. We deem it not less a pleasure than a duty to give our aid to any project which earnest and true men, may deem for the welfare of the city; and we entertain a very strong desire to furnish to our readers, as their right, all projects of improvements which may be started, whether these projects commend themselves strongly to our mind or not.

We are told by good friends, on whom we rely, and in whose judgment we have the fullest confidence, that there is a fair prospect that the railroad from the city to Waterville will be built, and also that to Lincoln. We rejoice in the good prospect that opens for both of the roads. We should rejoice to see both of them constructed. We believe that both of them would increase the prosperity of the city—would awaken a new zeal and enterprise in our people by furnishing new and improved facilities for business. We belong to the affirmative progressive class, in favor of seeing every well meant and reasonable project for improvement succeed. We do not belong to that class of destructives who seek to delay and trip and prevent the success of improvements. We are strongly disposed to give to every man the benefit of the highest and purest motives for his conduct and professions. Thus much in justice to ourselves and in answer to those who think something is to be gained by representing us as hostile to the up river road, since such is not the case, nor begins to be.

From the following statements, which we copy from the Mercury, and which is substantially an account of the proceedings at the meeting held at the Bangor House, it will be seen that the prospect for the opening of the Lincoln road, at no distant day is of a character to arrest attention, and to demand a thorough investigation. That the road would be of immense advantage in facilitating business on the river and greatly increasing that business, and promoting the growth and improvement of that section of country, must be admitted by all. The estimated cost of the road is small, but is made by a practical man, who appears to understand his business, and who is willing to risk something in confirmation of the correctness of his estimates. Those persons specially interested in the construction of this road, have confidence in the estimates and feel very confident that the facts in the case, justify them in the expectation that the road will soon be built. Well: Bangor energy and skill and capital and credit, can do a great deal when fairly at work, on a substantial basis. It is better for it to engage in the construction of two roads, than doggedly to keep aloof from either, and labor to pile up a few private fortunes without paying any attention to public improvements. By exercise strength is acquired, and a little wholesome exercise, in the way of public improvements even if it reaches a little over into the region of hard labor, is better than to rust. Decay is more likely to come from inertia and rust than from the wear and activities of work.

So long as these railroad enterprises are each kept in an affirmative position, there is little danger to be apprehended. Bangor people ought to take large and liberal views of their position, their prospects, the resources that surround them and the elements of industry and business which may be quickened into life. They ought to feel strong to carry forward all feasible and profitable enterprises. They ought to be ready to grapple with seeming difficulties which they have the ability to remove.

While, then, our own personal convictions are that by concentrating efforts upon the Waterville road and completing it, that the people here will be able the stronger for constructing the road to Lincoln, we are by no means sure that there is not present ability to start the two roads simultaneously and push them forward to completion. This is a matter of experiment to be determined by a fair trial. We are willing to see the trial made in good faith upon both sides, and we can see no necessity of any effort on the part of any one to injure one side or the other.

If any man shall be found to make use of one of these projected enterprises for the purpose of destroying the other, or from sinister and unworthy motives, shall labor to delay the construction of either or both of these roads, he should be deemed an enemy to the city and to the welfare of the people.

We here give place to the article already referred to:—

Milford and Lincoln Railroad.

A large meeting of the friends of this proposed enterprise was held at the Bangor House last (Monday) evening, comprising many of the substantial business men of the city. Josiah Towle was called to the chair, and G. W. Smith appointed Secretary.

The following estimate of the cost of this road, made by Mr. Cushman, builder of the Calais and Baring Railroad and of other roads, was exhibited:—Grading, masonry, graveling and completing the road-bed, $3,500 per mile. Iron, at $10 per ton, $3,520. Other apparatus, laying track and distributing materials, $814—making $8,834 per mile, and for the 33 miles, being the distance between Milford and Lincoln, $391,522. For engines, depots, cars, land damages, &c., $17,500—making the total cost of the road in running order, $339,022, or in round numbers, leaving a margin for rise of iron, or other unforeseen contingencies, $350,000.

The estimated business of the road is as follows:—It is considered that the number of way and through passengers may be fairly set down as large as it is now over the Oldtown Railroad, which for the year ending June, 1852, was but a fraction short of 50,000. These, averaging 80 cents each, will give an item of $40,000. Fifty millions of shingles, at 20 cents per M., give $10,000; four millions of clapboards, at $1, $4,000; 20,000 tons of other freight, at $2 per ton, gives $40,000. These items make the estimated receipts $94,000, and this by many gentlemen present acquainted with the up river business is considered a low estimate. In this connection it may be mentioned that the receipts of the up river boats, which have only run about five months, and of Shaw & Billings' stages, for the last year, have been about $10,000.

An offer has been made to run the road with two daily trains at $22,500 a year. This may be considered rather low, however. Repairs, &c., are estimated at $10,000. Interest on $350,000 (estimated cost of the road,) $21,000, making $53,500. This outlay deducted from the estimated receipts, $94,000, gives a nett income of $40,500, or more than ten per cent. over and above the regular interest. That the road will yield such a dividend, the friends of the enterprise have not the slightest doubt.

How is the road to be built? On the books of subscription, stock to the amount of $100,000 has been subscribed within a day or two by a few of our citizens, the largest subscription being $20,000. At and above Oldtown $50,000 can be raised. $100,000, it is confidently hoped, may be obtained by general subscription through the city, and the other $100,000 may be readily obtained from loans on the road.

If the estimates of this road are low, it must be considered that the grade between Milford and Lincoln is remarkably favorable, nature having more than half done the work herself, and it is further to be considered that the building of the road is a cash operation. It is all to be done with money, and not a step will be taken until it is known where every dollar is to come from. The subscribers especially repudiate the idea of putting the credit of the city into this or any other enterprise. The points which, in the opinion of those interested, commend this road, are—first, that it will benefit property up river; second, that it will benefit property in this city; third, that it will be a paying road; and fourth, that it will be the beginning of a trunk of railway which shall, one day, extend into the Aroostook country.

Messrs. G. K. Jewett, W. H. McCrillis and J. B. Foster, were appointed a Committee to ascertain land damages, to obtain subscriptions, and to act generally for the subscribers in behalf of the road until the Company should be organized under the charter.

Messrs. Isaac R. Clark, A. Hayford, Col. Stacey, C. J. Fay, of North Lincoln, and Timothy Fuller, of Lincoln, were appointed a Committee to collect statistics, and report at a public meeting soon to be called.

A settled conviction pervaded the meeting that the road is needed, and that it will be good property, and there was manifested an earnest purpose for its immediate prosecution.

Penobscot County Whig Convention.

THE Whigs of the several towns and plantations in the County of Penobscot are hereby requested to meet by their delegates in convention at the CITY HALL, in Bangor, on Wednesday the first day of September next, at ten o'clock in the forenoon, for the purpose of nominating Three Candidates, for Senators, a Candidate for Clerk of the Courts, County Attorney, Register of Deeds, County Treasurer and two Candidates for County Commissioners.

The ratio of Representatives is, That all organized plantations, are entitled to one Delegate—Towns having one thousand inhabitants and under will send two Delegates—over one thousand and under two thousand four delegates—over two thousand and under three thousand six delegates—over three thousand and under eight thousand ten delegates—over eight thousand fifteen delegates—The census of 1850 to be taken as the basis of representation. It is desired that every town shall be fully represented. Per order

GEO. A. FAIRFIELD,
Secretary of Whig County Committee.

Bangor, Aug. 7, 1852.

WHIG MASS CONVENTION.

The Whigs of the Representative Class composed of the towns of Carmel, Hermon, and Levant, will hold a Mass Convention at the School House in South Levant Village, on SATURDAY, the 21st inst., at 10 o'clock A. M., for the purpose of nominating a suitable person for Representative for said District.

For order of the several town Committees,
Aug. 10, 1852.

☞ We mentioned yesterday that, a portion of the stockholders of the Penobscot and Kennebec Railroad had undertaken in Portland to organize that Company anew by the choice of officers. We deem the whole matter an abortion, but as a matter of curious history in railroad affairs we publish the following list of officers from the Portland Advertiser:

DIRECTORS.
John M. Wood, of Portland.
Phineas Barnes, of Portland.
John A. Poor, of Portland.
Henry B. McCobb, of Portland.
Allen Haines, of Portland.
Geo. W. Sauley, of Augusta.
Geo. W. Chamberlin, of Carmel.

The Board of Directors was organized on Monday, as follows:

John A. Poor, President.
John M. Adams, Clerk.
Woodbury Storer, Treasurer.

The Advertiser has the grace to say that the most efficient measures have been adopted to put the road in progress.

We look upon this organization and these "efficient measures" and the advertisement for proposals as so much bluster and bragadocia for the purpose of *forcing* the real Company here to some offer of compromise, but the thing won't work—no compromise will be offered or accepted. Bangor intends to take care of herself, and if her people can only get enough excited the road will be built in a short time. Bangor is like the western man who said that his ordinary weight was a hundred and eighty, but when he was real mad he weighed a ton. Now if Bangor just gets mad enough the road goes, and no mistake!

☞ The whigs in the several towns in this county should remember that the county convention for the nomination of county officers is to be held in this city on Wednesday, the first day of September next. They should meet and choose their delegates, and the way to have the best nominations made, those that the people will delight to support and elect, is, for every whig to attend the primary meetings and select the best men they have as their delegates. Do not omit this part of the political duty which the whigs owe to their cause and country.

☞ We learn that there are several families, and also the wives of men who are now in California, with others, who intend to go to California in the Bark Gold Hunter, now up for California. The company will be very pleasant, and those who wish to go to the new State will find this a very desirable mode of conveyance, much better, we should think, than by the steamers. James Dunning, Esq., who advertises the Gold Hunter, will make every effort to make the voyage agreeable. The Bark goes entirely for the benefit of passengers.

☞ The Bangor Brass Band has at length been fortunate in securing a leader who is most thoroughly fitted for his office by the possession of great musical skill and taste; a man who is in love with his profession, and who maintains a most worthy and honorable reputation as a man of intellectual and moral worth, of good habits and with honorable intentions and gentlemanly manners and conduct. Mr. Elijah Howe, the gentleman referred to, offers, by his card in another column, his professional services to this community, and he brings with him the most reliable and honorable testimonials.

☞ The following nominations have been made by the whigs in Kennebec County:

Senators—Col. I. N. Tucker, of Gardiner; Stephen Stark, of Waterville; and Joseph Eaton, of Winslow.
County Attorney—R. H. Vose, of Augusta.
Clerk of the Courts—William M. Stratton, of Augusta.
County Treasurer—David Pike, of Augusta.
Register of Deeds—A. G. Starks, of Augusta.
County Commissioners—Wellington Huntoon, of Wayne; and Moses Tabor, of Vassalboro'.

WAVERLEY NOVELS—LIBRARY EDITION—VOL. V.—We have received from David Bugbee the fifth volume of the substantial library edition of the Waverly Novels, now in the course of publication by Messrs. S. H. Parker and B. B. Mussey & Co., of Boston.

This volume contains the novels of Black Dwarf and Old Mortality of the Tales of My Landlord. Each volume is embellished with illustrative engravings.

White Concert.

Ordway's Æolians will give their last grand concert at the City Hall this evening, and by special request will give an entire and very popular White Concert, in which they will introduce selections from various operas. This company are to sing in Bath on Monday evening, and this is the last opportunity for hearing them in this city.

☞ The editor of the Waterville Mail is rejoicing in the fact that Waterville has been visited within a few days by parties of brave men and beautiful women and pleasant children from the neighboring towns. Great social gatherings and railroad excursions are getting to be quite common on the Kennebec.

The New Hampshire papers are noticing a somewhat extraordinary circumstance in the fact that this year their pole beans won't run, and therefore poles are useless.

There are so many mixtures that nothing runs very well this year except beans, in this vicinity, and they run first rate and stick to the *poles* like true patriots.

Handsome Donation.

We understand that a young man of this city has recently presented to the only church in his native town in this State, a good-sized, fine-toned bell. A species of "young men's extravagance" not very likely to be severely censured or often repeated.

☞ The Washington correspondent of the Journal of Commerce says, letters have been received at Washington from public men in the British colonies, stating that the naval force on the coast, for the protection of the fisheries, will not be withdrawn until the object had in view is effected.

☞ Advices have been received that the Peruvian Government has ordered a re-inforcement of the garrison at the Lobos Islands, in consequence of the sanction of Mr. Webster to American vessels attending to engage in the collection of guano.

☞ Mrs. Stoddard of Farmington recently drowned one of her children in the river, and while attempting to drown another was discovered and the child rescued. She then attempted to drown herself, but was rescued by several boys.

☞ In North Carolina, Reid, the loco candidate for Governor, runs ahead of his party ticket about four thousand votes. This reduces the popular majority of the party considerably, if not more.

☞ The Waterville Mail contains large quantities of fine poetry written by several young ladies of this city, who are regular contributors to that journal.

☞ A Normal School is to be opened at Machias on the 8th of September, to continue for [illegible] weeks under the direction of Mr. Cyrus Pierce.

☞ A Marine Railway has recently been constructed at Tenant's Harbor, in the town of St. George.

☞ Hon. Ira Perley, Judge of the Superior Court of New Hampshire, has resigned his office, to take effect 13th of October.

☞ The annual meeting of the Boston and Maine Railroad corporation is to be held at Exeter, on Wednesday, September 8.

☞ The anniversary exercises of the Bangor Theological Seminary will take place next week.

The State Convention of the New Jerusalem Church commenced its sessions in this city on Friday last, and continued until Monday. It was fully attended, and the services are said to have been highly interesting.—[Bath Times.

Bounty Land to the Civil Posse in the Aroostook War.

Senator Hamlin communicates to C. P. Brown, Esq., the following letter from the Pension Office:

[COPY.]

PENSION OFFICE,
Aug. 12, 1852.

SIR:—You inquire what decision has been made with regard to the Maine Volunteers, under the Act of March 22d, 1852.

In reply, I have the honor to state that so far as the militia, regularly called out by the Governor of Maine is concerned, no difficulty has existed, provided their service was of sufficient length to entitle them.

But the case of the armed police force was not so easily determined. Whether they could come at all within the provisions of the Act, and if so, when their service should be computed as commencing, were points that I confess were exceedingly doubtful.

On carefully weighing your arguments, however, and considering the liberal spirit in which the law was conceived, I have no doubt they should be allowed land for their services, to be computed from the proclamation of Sir John Harvey to the time when the militia force of Maine was disbanded. It must be shown, of course, that the claimants under this construction were in actual service at the date of that proclamation, and that they continued in it until the withdrawal of the militia from the border.

Very respectfully,
Your obedient servant,
L. F. C. TRIPLETT,
Acting Comm'r.

Hon. H. HAMLIN, U. S. Senator.

NEW YORK, Aug. 19.

The Crescent City arrived last night via Havana, and made the quickest run on record. She had 120 passengers.

Great excitement prevails at Havana, in consequence of committing great numbers of Creoles to prison; the number so large as to use prisons that have not been tenanted for twenty years.

Yellow fever, cholera, and small pox prevail to great extent. Almost every ship in port had cases of fever.

Advices from Hayti, report very sickly at that place. At Cape Haytien United States Consul had died. Many American vessels had suffered in officers and men.

Fire at Orono.

A fire caught in the house of Joel Tucker, Pine street, Orono, on the 18th, which communicated to the house of James Adams. Both were consumed—Mr. Tucker's with the whole contents save one bed. Tucker's damage was some $200, and Adams $300—no insurance.

[Mercury.

Gen. Shields thus speaks of Gen. Scott:—

"Gen. Winfield Scott is the candidate of the whig party. For him I entertain the highest personal regard and esteem. I admire him as much as I do any man living, for his great military talents, and I consider him entitled to the gratitude of his country, for his glorious military services."

There is but one true and substantial mode in which that gratitude to which General Shields says General Scott is entitled, can be bestowed upon him—and that is by placing him at the head of the republic which he has served so well. Now is the time to recompense him, and we think the people are everywhere showing their determination to discharge the obligation, by electing him to the Presidency.

Winter Wheat.

To the Editor of the Whig and Courier.

I take pleasure in complying with your request to communicate my opinion in relation to the successful cultivation of winter wheat in the State of Maine, and particularly this part of the State; and also facts in relation to a crop grown by Mr. Rufus Gilmore, of Holden.

It has long been a matter of regret to me that so much of the income of our forests should be expended in the importation of grain and flour, and anything that I can truthfully say to encourage the cultivation of winter wheat, I will say.

Mr. Gilmore, knowing that I had seen it cultivated in the Middle, Southern and Western States, called upon me and asked my advice, "Is it best for me to sow it?" My answer was, yes, most certainly. If you sow *early enough* and where the water *will not stand* or the ground *heave badly* with frost, you may expect a crop with a good degree of certainty, and a good crop. Lime in the soil is indispensable to the growth of wheat, and if not originally in the soil should be applied by the cultivator. In England 300 or 400 bushels are sometimes put upon an acre with advantage. In Pennsylvania the farmers make large piles of lime-rock and coal which is burnt into lime and carted on to their land and dropped in heaps. It lies in this state or spread, until it loses most of its caustic properties, and is then harrowed in. If lime is wanting the annual application of a very small quantity will ensure a crop. This may be done by sowing and incorporating it with the soil previous to sowing the grain, or as a top-dressing after it is up—the last with caution. Many persons have had their crops burnt up by lime! Be careful. I was told several years since, that so much was applied to a piece of ground within two miles of your office, that it killed the crop for two years. After that it produced 40 bushels to the acre! Good farmers in the Middle and Western States sow if possible as early as the middle of August, and if any of their more slothful neighbors sow after the middle of September, they will nod their heads significantly and say, "Ah, he may get *half* a crop." It should be sown earlier here than south or west. I believe *early sowing* is almost *absolutely necessary* to a *sure* or *full* crop. I have known it to do well when sown late. I knew crops sown in Iowa on the middle of August, others the first of September. Those sown in August produced several bushels more to the acre. Other things except the time of sowing seemed to be equal. Some farmers may think a few days difference in the time of sowing is a trifle. But the assured *trifle* make *perfection*, and *perfection* is no *trifle*.

I have not the least doubt of the most perfect success, if our farmers will sow on land in good tilth, with sufficient lime, where the water will not stand, or the ground heave, and sow early, that is as soon as the first of September.

If sown on ploughed land it will do best on sward land turned over four or six weeks before sowing, and well harrowed at the time of sowing. It does not do so well after other small grain. Mr. Gilmore's crop is good—much better than I should have supposed under the circumstances. It was burnt ground. This was favorable. But it was on a steep hill and very rocky. Much of the surface was covered with rocks, and the crop suffered from the drouth. But he will probably get 20 bushels to the acre or from each bushel's sowing. This is a good yield—the average crop of Virginia being between 12 and 18 bushels to the acre, if I recollect rightly the reports of some of their agricultural societies. If I had been taken to see the land where Mr. Gilmore was about to sow his wheat and asked, "Can I get a crop here?" I should have answered yes, but it will be very small. The quantity far exceeds my expectations, about 80 bushels (by estimation.) If a good crop could be obtained there it can be had *almost* anywhere. Mr. Gilmore has a great deal of land far better for wheat than that on which he sowed. The quality of his wheat is excellent. The kernel is large and plump, and it will not suffer in comparison with the best of southern and western wheat. He assures me that his wheat can be relied upon as the real barmer wheat. It is excellent wheat for seed. And in closing I would say to all farmers, as I said to Mr. Gilmore last year, don't be afraid to sow—sow largely, you are as sure of a crop as they are in any part of the country.

Respectfully, J. B. HAYES.

CONGRESS.

WASHINGTON, August 16.

In the Senate. Several private bills were taken up, and dismissed, but none were definitely acted upon.

Mr. Hunter reported back the bill extending the warehousing system by establishing private bonded warehouses.

Mr. Fish gave notice that on day after tomorrow he would move, during the morning, leave to take up the House bill known as Bennett's Land Distribution Bill. The vote on it yesterday when offered as an [illegible] to the Canal bill, was not upon its merit.

Mr. Hale offered a resolution [illegible] an inquiry, by the Committee of Foreign Relations, as to the expediency of [illegible] the Lobos Islands to the United States. [illegible]

Mr. Douglas moved to take up the bill directing the manner of paying out the appropriations to defray the expenses of the [illegible] Oregon—agreed to—and the bill was passed.

The bill granting land to the several States for the support of indigent insane (Miss Dix's bill)—was received from the House and [illegible] to a select committee of five.

The bill in aid of a ship canal around the Falls of St. Mary, in Michigan, was passed.

Mr. Hunter gave notice that to-morrow morning he would move to take up the [illegible] diplomatic appropriation bill.

Mr. Hale gave notice that he would, during the morning hour, move to take up the homestead bill.

Mr. Davis moved, and the river and harbor bill was taken up.

The first amendment reported by the Committee on Commerce was the item appropriating $75,000 for a ship canal from the Mississippi River to the Gulf of Mexico, the same to be done by contract, by striking out the words "to report said contracts, the progress of the work, and an estimate of the amount [illegible] keeping channel open," and to insert instead thereof the following words: "To report the progress of the work, the amount [illegible] to complete it, and an estimate of cost of keeping channel open; and any contract [illegible] limited to the amount hereby appropriated."

Mr. Downs opposed the amendment. It was verbal and unnecessary. He thought the [illegible] of the bill, in order to secure its passage, should vote down all amendments and pass the bill as it now stands.

Mr. Hamlin explained that the amendment was necessary to prevent mistakes as to the [illegible] tracts.

Mr. Cass said that the bill was a good one as it stood, and he would object to any amendment being made to it. In doing so, he and his colleague were as disinterested as any Senator could be. Michigan, with a coast of 900 miles, had appropriations only of $40,000, while other States, with far less coast, had much larger appropriations. The bill was a [illegible] and if amendments were adopted it would endanger its passage. The next session was only three months off, and all injustice which may have been done can be obviated. The delay will not be of much consequence, for [illegible] the appropriations for the North, or the North-west, could be expended before spring.

Mr. Borland pointed out the unequal appropriations made by the bill. He thought the Representatives of the Western States had the most cause to complain of the inequality, still it would hazard, if not defeat the bill, to make amendments and send it back to the House next time. He would oppose all amendments, and vote for the bill as it is.

Mr. Soule was in favor of the amendment reported. It was necessary. If it were the only one, he would now insist on putting the bill to the House; but it was well known there were other amendments to be made.

Mr. Bright considered this was the time to test whether any amendment should be made. He thought the bill was unequal in its appropriations, but he would prefer to take it as it was to defeating it by amendment. If amendments were made he had several to offer himself.

Mr. Atchison said the Senators from Michigan and Indiana had arrived at a new principle: that a bill, acknowledged by them to be defective, does not provide for the West, yet that all amendments to make it perfect should be voted down.—Only $360,000 are appropriated for the Mississippi river—when those very Senators knew that that sum would not purchase snag-boats for the Missouri and Arkansas alone, not saying anything of the great trunk of the Mississippi. The bill was in all particulars the same bill which was vetoed by President Polk. He was not aware that the sentiments of Senators who voted to sustain that veto had undergone any change. He would vote against it as fraudulent on its face.

Mr. Pratt said that the argument that Polk vetoed a similar bill to this might or might not have force. But Congress passed that bill, Polk vetoed it, and the people vetoed him at the next election.

Mr. Douglas said Polk was not a candidate.

Mr. Pratt said he was before the Convention and it refused him.

Mr. Adams said that on his own knowledge he knew that Polk was not a candidate at that Convention.

Mr. Pratt defended the appropriation for the Patapsco River.

Mr. Rusk protested against the doctrine now advanced, that a bill must be taken for better or worse, just as it stands. This was a sort of knock-down argument which he did not approve of. If carried out, the Senate was to become mere registers of the appropriations of the House. He pointed out many of the defects contained in the bill. The appropriations for the Western rivers were wholly inadequate to those works.

Mr. Cass said the debate showed that the work of amendment once commenced, every Senator would at once begin amending, and the bill would become overloaded, and would break down of its own weight. The reference to Polk's veto did not include him. He voted for that bill which was vetoed.

His name was to be found in the affirmative on its passage. While it was in Mr. Polk's hands he even went to him and suggested considerations why the President ought to sign it. His position then and now was in favor of any reasonable River and Harbor bill—"The Chicago Convention letter," and "being and confusion," to the contrary notwithstanding. He hoped no amendments would be made to the bill.

Mr. Butler said that such a bill ought to be accompanied by a report showing a necessity of the work. How was he to understand why he was to vote the particular sums contained in the bill for particular works. He would like to know upon what data the bill was prepared.

Mr. Davis said the bill was prepared, as all others were, upon estimates of departments of sums necessary for carrying on during the current year works commenced by Government, or repairs of those in progress.

Mr. Mason opposed the principle of cutting off all amendment, by agreement among the friends of the bill. He believed the House would take the bill, no matter what amendments the Senate might add to it.

Mr. Bell said that Senators whose portion of the country were provided for might say they were satisfied with the bill, but he was not. Minor objects had been provided for, yet nothing was done for the Cumberland or Tennessee rivers. He was in favor of perfecting the bill by amendments, and if the House refused to adopt them, the Senate could recede.

Mr. Downs renewed his opposition to endangering the bill by amendments.

Mr. Hale followed in general remarks on the bill. He would vote for the amendments, and would for the bill.

Mr. Malony said the attempt to force the bill without amendment would cause him to vote against it. It contained no appropriation for the dangerous coast of Florida.

Mr. Mason moved to postpone for an executive session.—Lost.

Mr. Soule followed in support of the amendment, and Mr. Downs opposed it.

Mr. Chase said there was plenty of time to amend the bill, and send it to the House. He named several instances in which appropriations should be added.

Mr. Dawson followed, reading from Mr. Cass's speech at the last session, in which he opposed the bill then pending because there was no estimate for some items by the departments. He [illegible]

Mr. [illegible] If the Senate [illegible]

Mr. Dawson [illegible] replied.

The Senate then [illegible] adjourned.

House. The House met at the usual hour, and [illegible] consideration of the Wheeling Bridge bill.

Mr. [illegible]

Mr. N[illegible] of Ohio, [illegible]

Mr. Olds, who [illegible] the [illegible] rest of the time.

The House then went into Committee of the Whole [illegible] the Navy Appropriation bill.

Mr. Stanly [illegible] authorizing the Secretary of the Navy to carry [illegible] a contract [illegible] provide for [illegible] Mr. Stanton [illegible] following amendment:

Provided, [illegible] expenditures [illegible] and equipment [illegible]

Mr. Jones of Tennessee, raised a question of order on the ground that the amendment was not germane to the subject under consideration, and proposed to enact a permanent law as a general appropriation bill.

The Chairman, Mr. Bocock, decided the amendment out of order.

Mr. Stanton, of Tenn., appealed from the decision.

Mr. Chairman. I would ask whether there is not a law establishing a navy.

Chairman. I would refer the gentleman to the books. (Laughter.)

The Committee reversed the decision of the Chair—19 to 71, and the amendment was agreed to—yeas 78, nays 15.

Mr. Stanton of Tenn., moved to add $310,000 to the appropriation [illegible] amendment just agreed to [illegible]

Various efforts were made to increase the proposal, and five minute speeches were made thereon. Finally, the amendment was agreed to—yeas 70, nays 50.

Mr. Pratt offered an amendment authorizing the Secretary of the Navy to carry out the contract with Stevens for the construction of a shot and shell-proof vessel.

The Chairman decided this out of order, and was sustained by the Committee—yeas 62, nays 57.

Mr. Stuart offered an amendment that no appointment of midshipmen to the Naval School shall be made unless recommended by the member of Congress representing the district in which the applicant resides, and that the appointment shall be made in the same manner as those of cadets to West Point.

Mr. Florence moved further to amend by authorizing the President to appoint ten midshipmen at large without regard to Congressional representation. Disagreed to.

During the debate which took place on the above, several gentlemen complained that gross favoritism had been practiced by the Secretary of the Navy in making appointments of midshipmen, and said it was now time to stop the abuse, which has existed too long to the prejudice of some parts of the country. The question of favoritism in making appointments of cadets was likewise incidentally referred to in condemnation, and the general subject of appointments discussed. The Committee rose without proceeding further on the bill, and the House adjourned.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

BUFFALO, August 20.

We just received an account of a frightful collision on Lake Erie, at about 2 o'clock this morning.

SECOND DESPATCH.

11 A. M.—A collision between the Atlantic and Ogdensburg occurred near Lockport, and with such force was the former struck that she went down in a few minutes with all on board. It is impossible at present to get anything like a correct list of the drowned or the number, though it is known that at least 200 are lost, and perhaps a still greater number. One report says 250. There was a large amount of money on board belonging to an Express Company, which was also lost.

District No. 5.—Convention of the Free Democracy.

The Independent Democrats of the Congressional District No 5, comprising Penobscot, Piscataquis, and a part of Hancock Counties, are requested to meet in Convention at the Court House in Bangor, on Wednesday, the 1st day of September next, at two of the clock P. M., to nominate a candidate for Representative to Congress, to be supported by the Free Democrats of said at the next election.

Bangor, Aug 4, 1852. Per order.

Morse's Compound Syrup of Yellow Dock Root is warranted to cure or relieve all cases of disease for which it is recommended in the circulars, when properly tried.—This warrant is based on the fact, that its proprietors have never heard of its failing in any such case to benefit those who have used it. This they positively assert. What better evidence could be desired of its value! Try it, and your own experience will convince you. ag21

BANGOR AIR-TIGHT
COOKING STOVE!

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers, Messrs. Bates & Whittier, who know, and have appreciated the wants, of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c. are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense, without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year and one not giving entire satisfaction may be refunded and the money will be refunded, after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 5 and 4 Boiler and two Oven—Boston two oven Stoves; Forrest Queen, &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot.

ISLAND HOUSE! MOUNT DESERT.

A Fine, Cool, Summer Resort!

THE subscriber continues in operation the large and beautiful Island House at South West Harbor, Mount Desert for the accommodation of travellers, parties of pleasure, families and permanent boarders. The house is large airy and convenient. It fronts the harbor and is near the sound of old ocean, as it dashes against the rock-ribbed shore. It is in the vicinity of mountain peaks and amidst a great variety of natural beauties.

In this vicinity are some of the most beautiful rides in the State, and also numerous fishing grounds. The treasures and the pleasures of sea and land, of brook and lake, of mountain and valley all combine to make this one of the most popular summer retreats in Maine. Boat and Carriages constantly kept for the accommodation of guests.

The best cooks are in attendance, and every attention will be paid to the comfort of visitors.

The House is near a Telegraph Office and there is a Post Office in the vicinity with varied means of communication by land and water.

PATENTS.
American and Foreign Office,
AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.
No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, whereby a Patent may be procured about six weeks earlier, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions, and of consulting in respect to them, matters in general of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice, an extensive collection of rare works, decisions, & non mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

Bigelow's Alterative,

A CERTAIN cure for DYSENTERY, DIARRHŒA, CHOLERA MORBUS, and all Summer Complaints. GEORGE W. BEECHER Proprietor, 98 Broadway, New York.

For children who are Teething, and Cholera Infantum, this medicine stands unrivalled. It may be used with perfect safety both by old and young; and when faithfully administered, it has never been known in any case to fail of a speedy cure. Unlike other medicines, it corrects the bowels, and often in a few hours the patient is restored to his accustomed vigor and health.

We append the following testimonials:

I have used "Bigelow's Alterative," in my family and have never found it to fail, when all other remedies administered, by and under direction of Physicians have proved ineffectual. I think it a perfect corrective for Dysentery and all Bowel complaints.

GEO. W. BREUER, 47 Wall st.

New York, March 22d, 1852.

We can add our testimony to that of others of its great efficacy in our own case, when prostrated to an alarming degree by Bowel disease. It was the only medicine that gave relief, and one now always kept in the family.

Editor of the N. Y. Baptist Register.

Utica, April 15th, 1852.

"Bigelow's Alterative," advertised in another column of our paper, is, probably, the best cure for Dysentery, Diarrhœa, &c., &c., that has ever yet appeared. We seldom make a point of extolling patent medicines, and for the very good reason that most of them are entirely undeserving of praise; but we have it on such indubitable and respectable authority that the above "Alterative," is all, and more than all, it professes to be, that we cannot do less than make mention of it in this way, to our readers. All that we ask of the most incredulous in such matters is, to read the Certificates embodied in the advertisement, and then, judging from the high standing of the parties who are thus ready promptly and publicly to certify, candidly to say whether a remedy so endorsed, is worthy of attention or otherwise. We have more to say of this remarkable preparation.

What our eminent Physicians, Dr. Wm Wesselhoeft, Dr. C. E. Hofendard, Dr. John Birnstill, and Dr John Eskel, in Boston, Dr John Vandenburg, in New York, Dr. McManus, in Baltimore, &c., have proved by trying them. More than 1000 testimonials of above Physicians, which are confirmed by the government of ... may be read in the different languages at my Agents. All persons afflicted are respectfully invited to call on my Agents and satisfy themselves personally of the truth of these statements.

I recommend those Chains to all afflicted, as there are daily new and extraordinary cures effected by them.

The genuine Galvano-Electric Rheumatism Chains of Goldberger, are to be obtained of the following Agents.

PROOF CERTIFICATES.

Copies of Letters received by the Agent of M Lavasse.

From Miss A. L. Bonnet, of 34 East Broadway, N. Y. "The Recipes contained in M Lavasse's Secret of Beauty are excellent. The directions for removing freckles are up top; so also are the instructions about the teeth and gums."

From Mrs. Sarah Lyon, 620 Houston St. N. Y. "M Lavasse's instructions about making the skin fair and smooth, are excellent. I speak from my own experience. I am now over 50 years of age, and my skin had become quite sallow and wrinkled. I tried M. Lavasse's system and remedies as printed in his Secret of Beauty, and now my skin is quite fair and smooth."

From Mrs. J. M. Agen, 295 Bleecker St.

"I must recommend M. Lavasse's directions for Sweetening the Breath and Beautifying the Teeth. They have been adopted in my family with astonishing success."

From Mr. H. L. Smith, 294 Grand St. N. Y.

"I have tried Mr. Lavasse's plan for hastening the growth of Whiskers, Hair, &c. The directions he gives in his Secret of Beauty, are worth a fortune to all who want whiskers, &c."

Mr. Stephen Stewart, of Newark, New Jersey, says that his eye sight has been greatly improved by adopting M. Lavasse's directions and treatment for weak eyes. His friends, ... also tried that system with great benefit.

From Col. S. T. Sanford, 31 Canal St. New York.

"I have been trying your instruction for coloring the hair, and I have met with ... that I have received ... Secret of Beauty is worth hundreds of dollars to all who want the hair colored."

From Miss Kate Townsend, Waverly Place, New York.

"The directions M. Lavasse gives for removing superfluous hair are the best I ever tried. His plan is far better than any depilatory powders I know of."

M Lavasse could fill a large book with testimonials in favor of his different plans for improving the appearance, preserving the teeth, hardening the gums, &c.—His work is the most popular thing ever printed. All ages, classes and sexes unite in its praise. He is selling thousands of copies of his work every month.

☞ The work called the Secret of Beauty gives directions for making and using the different articles advertised. M Lavasse does not prepare them for sale. His time is too much taken up in attending to his correspondence. You can send the money by mail for the work, (one dollar.) There is no danger of its being lost. On receipt of the dollar the Secret of Beauty is sent by mail, sealed up like a letter, and at letter postage.

Inducement to Clubs.—To accommodate neighborhoods eight copies will be sent for FIVE DOLLARS. Blowers of institutions. Address as above.

Lesage's Specific.

NEVER failing remedy for thoroughly eradicating diseases of the Urinary Organs, such as Gonorrhea, Gleets, Whites, Strictures, Stone in the Bladder, &c., and needs but to be once used to be universally esteemed. The proprietor would respectfully caution those troubled with the above annoying complaints to beware of those duresome, unprincipled individuals, without the slightest knowledge of the structure of the human system, recommend for every disease. Lesage's Specific is only intended for the cure of Private Diseases and the thousands that have sent their unsolicited certificates vouch for its efficacy, while the better it is known the greater is the demand for it. How different from the various quack medicines which, when the unhappy patient has once used, no inducement can ever make try again.—Lesage's Specific has been the remedy depended on by every class, the senator, the lawyer, the mechanic, the seaman, and the dashing cyprian have all tried it and found it truly the good Samaritan in the hour of trouble.

Dr. Darby annexes extracts from some of his certificates:

U. S. Frigate Cumberland, 1851. I contracted a disease at Naples, and tried all the remedies suggested by the most experienced Surgeons without success. Lesage's Specific has restored to me the health I long despaired of.—J. W. W.

Louisville, Ky.—I have much pleasure in stating that Lesage's Specific has cured me of a gleet of 22 months duration.—H. C. D.

Bangor, Me.—After having used two bottles I found myself cured of an old standing complaint in six days, and shall not fail to recommend you should I know of any troubled as I was.—John Brown.

Sold by RALPH H. DARBY, Apothecary, No 91 Broad street, Boston. Price $1.00 per bottle; two bottles $1.75.

AYER'S
CHERRY PECTORAL
For the Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Of all the numerous medicines extant, (and some of them valuable) for the cure of pulmonary complaints, nothing has ever been found which could compare, in its effects with this Preparation. Others cure sometimes, but at all times and in all diseases of the lungs and the throat, where medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise for the information of those that have tried it, but those who have not. Families who have known its value will not be without it, and its timely use, they are secure from the dangerous consequences of Coughs and Colds which neglected, ripen into fatal consumption.

The Diploma of the Massachusetts Institute was awarded to this preparation by the Board of Judges in September 1847; also the Medals of the three great Institutes of Art in this country; also the Diploma of the Ohio Institute at Cincinnati, has been given to the Cherry Pectoral, by their Government in consideration of its extraordinary excellence and usefulness in curing affections of the Lungs and Throat.

Read the following opinion founded on the long experience of the eminent Physician of the Port and City of

ST. JOHNS, May 8, 1851.

Dr. J. C. Ayer—

Five years trial of your CHERRY PECTORAL in my practice, has proven what I foresaw from its composition, must be true, that it eradicates and cures the colds and coughs to which we, in this section, are peculiarly liable.

I think its equal has not yet been discovered, nor do I know how a better remedy can be made for the distempers of the Throat and Lungs.

J. J. BURTON, M. D. F. R. S.

See what it has done on a wasted constitution, not only in the following cases, but a thousand more:

SUDBURY, Jan. 24th, 1851.

Dr. Ayer—In the month of July last I was attacked by violent Diarrhœa in the mines of California. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My Diarrhœa ceased, but was followed by a severe cough—and much soreness. I finally started for home, but received no benefit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. At this time I commenced taking your truly invaluable medicine with little expectation of deriving any benefit from its use.—You would not receive these lines did I not regard it my duty to state to the afflicted, through you, that my health, in the space of eight months, is fully restored. I attribute it to the use of your Cherry Pectoral.

Yours truly, WILLIAM W. SMITH.

WASHINGTON, PA., April 12, 1848.

Dear Sir: Feeling that I have been spared from a premature grave, through your instrumentality by the providence of God, I will take the liberty to express to you my gratitude.

The alarming symptoms of Consumption had reduced me too low to leave me anything like hope, when my physician brought me a bottle of your "Pectoral." It seemed to afford immediate relief, and now in a few weeks time has restored me to sound health.

If it will do for others what it has for me, you are certainly one of the benefactors of mankind.

Sincerely wishing you every blessing, I am &c.

Very respectfully yours,

J. CLARKE, Rector of St. Peter's Church.

With such assurance and from such men, no stronger proof can be adduced unless it be from its effects upon trial.

THE ROAD TO HEALTH!
HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway,

SIR,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Walch.

Margaret M'Cunnigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless.—A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredibly short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement—August 2d, 1851.

To Professor Holloway,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain which I could not do before. (Signed)

HENRY COE, North street, Lynn, Norfolk.

These celebrated Pills are wonderfully efficacious in the following Complaints.

Ague	Fevers of all kinds	Scrofula, or King's Evil

Bounty on Wolves.

If you'd your Wolves most surely kill,
And Foxes, too, why Hunter's call,
'Tis nothing but to give the Pill,
The victim drops, then Hunters call.

AFTER trying for several years to obtain a more deadly poison for Wolves and Foxes than any heretofore used, I have now succeeded in getting an article that is sure and almost instantaneous in its deadly effects, giving the victim no time to move from the fatal spot where it was tempted by the Hunter to take his last mouthful.—There is no other, like it that I have seen or been able to find. Great American Remedy.
FOR COLDS, COUGHS, ASTHMA, CROUP AND CONSUMPTION.

WHY, Invalids, do you almost invariably first look the very best remedy for your complaint, in search of something with a foreign, mysterious, or crack jaw name? Half of them are made by quacks or persons having not a title of the scientific and practical knowledge, either of medicines, or of the human system, of the author of the above medicine. For dry hard coughs, and for children with severe stuffed colds, or in a croup, it is invaluable; and it stands alone a truly efficacious with Indian, Egyptian, Arabian, English, French, German or any other foreign or domestic preparation, which is now offered to the public for sale, up all the counties which it recommended. It was used by Doct Manly Hardy, its author, for many years with great success.—More than twenty thousand have tried it, and it commend it. then why look farther?
